

Hanging Platform HG20

Easy to operate and install.

Reliability

The HG20 hanging platform was especially designed for weighing live birds starting from day one. It's designed for easy installation and provides for easy clear access for birds, with no wires or electronics near the litter. The unit is easy to clean and built for a high number of weightings – making it both cost-effective and low-maintenance.

HG20 platforms can be connected to Image II, ChickScale 205 or the ChickScale 850 controllers.

The HG20 hanging scale was especially designed for weighing live birds strating day one.

The advantages of the HG20 are:

- No wire or electronics near litter.
- Easy access for birds.
- High number of weightings.
- Easy installation.
- Easy to clean.
- Low cost.
