

WRZ 500 Master & Slave

Easy to operate and install.

Reliability

The wireless **WRZ 500** Communicator communicates between the local farm office computer running the AgroLogic WebChick program and AgroLogic climate controllers.

It can also be connected to the AgroLogic Cellink cellular alarm unit to transfer data and alarms from the controllers to the farmer.

WRZ 500 uses RF ZigBee standard and has an outdoor range of up to 500 meters.
