

Weighing Platform PP20

Easy to operate and install.

Reliability

The PP20 floor platform is especially designed for weighing broiler, pullet and breeder flocks. Easy to install and maintain, the PP20 platform provides easy access for bird weighing. The unit is easy to clean and built for a high number of weightings - making it low-maintenance, affordable and productive.

PP20 platforms can be connected to Image II, ChickScale 205 or the ChickScale 850 controllers.

The PP20 weighing platform is designed for broiler pullet and breeder raising.

The advantages of the PP20 are:

- No wire or electronics near litter.
- Easy access for birds.
- High number of weightings.
- Easy installation.
- Easy to clean.
- Low cost.
