

CHICK SCALE 103

The ChickScale 103 is a portable low cost manual weighing scale for poultry farms. It runs on rechargeable batteries that can last up to 8 hours.

The unit weights each bird hanged on the scale and gives the following information:

- average weight of all the birds, standard deviation and the CV
- number of birds weighed
- gives the histogram with 25 gram increment +/- 1 kg around the average weight.

ChickScale 103 can store in its internal memory up to 9 different batches.

All information may be recalled at the unit itself or downloaded to a PC with the included PC program.

TECHNICAL SPECIFICATIONS:

MAXIMUM WEIGHT: 15 kg
PRECISION: +/- 5 gr.
DISPLAY: 4 Digits
ALIMENTATION:
220V or rechargeable batteries
WORKING TIME: 12 Hours
OPTION: USB output to PC
