

CHICK SCALE 205 & 850

The Chick Scale electronic live poultry weighing system comes in two models:

- CS 205 for use with 2 weighing scales
- CS 850 for use with 8 weighing scales

Chick Scale is a standalone, automatic, electronic in house poultry weighing system that helps make bird weighing easier, faster and more accurate.

Depending on the model, between 2 to 8 separate weighing scales can be connected to the Chick Scale main unit.

Chick Scale gives today's modern farmer the critical weight data on a daily basis which is so important to achieve good and economical flock raising.

Chick Scale Advantages:

- A complete automatic weighing system.
- Daily average weight coming from a large number of weightings.
- Uniformity with 25 gram steps.
- Reduces bird stress associated with manual
- Reduced labor costs.
- Current flock age and time
- Early warning of impending health problems.
- Complete control for optimum delivery time.
