

HG20 WEIGHING SCALE

The HG20 hanging scale was especially designed for weighing live birds starting from day one.

The advantages of the HG20 are:
No wire or electronics near litter.
Easy access for birds.
High number of weightings.
Easy installation.
Easy to clean.
Low cost.

PP20 WEIGHING SCALE

The PP20 weighing platform is designed for broiler pullet and breeder raising.

The advantages of the PP20 are:
No wire or electronics near litter.
Easy access for birds.
High number of weightings.
Easy installation.
Easy to clean.
Low cost.

HG20 and PP20 weighting units can be connected to the Image II, Chick Scale 205 or the Chick Scale 850 controllers.
